STEEL BUILDINGS

WHO CAN? TOTALSPAN!

TOTALSPAN AUSTRALIA

COMMERCIAL PROJECTS

COMMERCIAL PROJECTS

Totalspan Australia has a dedicated Commercial Projects division, working with clients to ensure they get a fit for purpose steel building and exploring available framing options. Our Pre-Engineered steel buildings offer exceptional flexibility and value for money. We have our own in-house team of engineers and designers. Moreover, our team will give you the time you deserve to really understand your business needs and building requirements.

It does not matter what stage your project is at, get in touch with our commercial team to discuss your project and the options available.

- ✓ **Will an economical cold-formed steel frame option be the right one for your commercial project?**
- ✓ **How about a hybrid structure bringing together hot-rolled and cold-form elements into a design?**
- ✓ **We can also supply a traditional fabricated option, especially if your project has already been designed this way and you are not after an alternative design.**

Let us put together a supply proposal for your next steel framed project and reap the benefits of using an optimized fit for purpose framing option.

MANUFACTURING - STEEL SALES

Unlike other shed companies in Australia, we are also manufacturers. Take the time to discuss your steel requirements with our team and we will put a supply package together for your project. We are manufacturers of a wide range of steel products including:

- Roofing
- Cladding
- Rainwater
- Structural (C's, Z's, battens, etc.)

Let us partner with you and treat you and your requirements with the care you deserve. You are not just a number to us; you are a VIP and deserve to be treated as such.

STEEL SHEDS AUSTRALIA

Totalspan Australia is part of Steel Sheds Australia (SSA). SSA is a relatively new venture in the Australian Steel Buildings manufacturing industry. In October 2019, Steel Sheds Australia acquired the Australian manufacturing and distribution business of Spanbild Pty Ltd, including some of the most established and respected brands in the Australian industry including Totalspan Australia, Spanbilt and Cheap Sheds.

Steel Sheds Australia is focused on servicing Australian consumers in new and innovative ways, to ensure we exceed their expectations.

From garden sheds, garages and workshops, through to larger portal buildings including Farm Sheds, Barns, Equine Buildings and Industrial Projects, we provide them all. Our customised building solutions and multiple distribution channels help us to communicate with our customers on a much more strategic and personal level.

Our Focus: Doing it Right!
